

*ANNUAL STATEMENT*

Jordan Motor Car Company, Inc.  
Cleveland

*December 31st, 1928*

## To the Stockholders of Jordan Motor Car Company, Inc:

This has been a most interesting year for your company. During the twelve month period it has been entirely reorganized; the business placed under a careful budget system; old inventories completely liquidated; a new line of cars produced and the business placed on a profit making basis.

We are very proud of the work that has been done by the new men in the organization, and extremely grateful for the friendly cooperation and substantial support accorded us by vendors, by Jordan owners and dealers, and particularly by the stockholders.

You will note in the consolidated balance sheet that the ratio of current assets to current liabilities is approximately eight to one, and that the cash item is over fifty-one per cent of the total tangible assets.

Your directors believe this to be the best statement that the Jordan Company has ever had. It not only shows a fine cash position but the inventory is very low and current liabilities practically negligible. All items which can be properly eliminated have been written off. Of the total merchandise inventory figured, thirty-six per cent is active service stock, and the balance is good current material.

However satisfactory this statement may appear, the most encouraging fact is that the new line of Jordan cars is being very favorably received and in the month of February the company showed a satisfactory profit. The prospects for the coming months are most favorable because the new line is getting into production and we have before us the best selling season of the year.

Yours very truly,

JORDAN MOTOR CAR COMPANY, Inc.,

*Edward S. Jordan*

President.
